

Cryogenic Gases

Please be advised that Liquid Nitrogen Gas and Supply has joined the Metro Welding Supply family of businesses. This family of companies now includes Cryogenic Gases which provides medical and specialty gases to Hospitals, Universities, Research Institutions, and Laboratories; Metro Carbonic which provides syrup and beverage gases to event centers, bars, restaurants, and breweries; Liquid Nitrogen Gas and Supply which provides liquid nitrogen and medical gases to medical professionals including dermatologists, dental offices, MRI, Hyperbaric Centers, physical therapy centers, Fertility Clinics, nursing homes and cryogenic preservation centers; and finally Metro Welding Supply which provides industrial, specialty, electronic, and laser assist gases to various fabricators, contractors, and utility companies.

Joining the Metro Team from Liquid Nitrogen Gas and Supply are Mike Wilson, and Brian Gough. Mike and Brian have a combined 30 years of experience in our industry and bring with them a commitment to unparalleled customer service.

“At the Metro Family of businesses, Customer Service is Our Only Business”
