Acme Cryogenics The Pinnacle of Performance

For Immediate Release

Acme Cryogenics Appoints Industry Veteran as CEO

Allentown, PA - Acme Cryogenics is pleased to announce the appointment of David Fritz as Chief Executive Officer. Dave is an industrial gas veteran and brings a broad range of experience to the CEO role, having recently retired from Air Products and Chemicals, Inc. where he spent 37 years, most recently as Global Director, Operational Excellence.

Joel Hansen, who had previously served as Acme's CEO for two years has decided to pursue other professional opportunities, and will serve in a transitional role for the next 90 days.

Josh Wilson, Managing Principal, Graham Partners, remarked, "We are thrilled to have Dave join the Acme Cryogenics team as CEO. He is an extraordinary leader who brings a level of world-class knowledge and expertise to Acme that will help us continue to provide best-in-class cryogenic equipment and service to our loyal customer base."

Dave Fritz added, "It is an honor to join the Acme Cryogenics family. As a long-time customer of Acme during my time at Air Products, I feel privileged to lead a company and team known throughout the industry for the highest quality products, strong customer focus, and value-added services model."

Acme Cryogenics, Inc. was established in 1969. Today, the company is North America's leading manufacturer of cryogenic gas equipment and systems with a proud history of innovation, responsive customer service, and responsible environmental stewardship. The company provides engineering design, fabrication, installation, and repair services to the food, pharmaceutical, semi-conductor, aerospace, medical gas and industrial gas industries.
